

To: Subcontractor

Doran Construction is implementing a process to review its subcontractor's financial qualifications in a manner that removes subjectivity, provides you with financial confidentiality, and eliminates the interpretation of your submitted data by Doran employees.

How it works: Submit your financial information to a third party service, which provides you a Contractor Score that you may provide to Doran or any other contractors that you choose. Contractor Score keeps all of your data confidential and then purges your financial information after your Contractor Score is issued.

When: Doran is requiring all subcontractors to provide their Contractor Score at this time for inclusion in future bid invites and for consideration in awarding contracts. The Contractor Score will then need to be updated by you and submitted annually.

Obtain your Contractor Score Certificate:

- at www.ContractorScore.net
- Questions: <http://www.contractorscore.net/Instructions.html>
- Contact: Mr. Glenn Matteson
- Gmatteson@Contractorscore.net
- Phone: 919-758-8700 Direct

There is a nominal fee required for obtaining your Contractor Score. While we understand concerns about the administrative burden as well as submitting this information to an unknown person or company, please know that Doran is implementing this process for the protection of its clients, itself, and also for the protection of the valued subcontractors on Doran Construction projects.

Email the Contractor Score certificate to constructionap@dorancompanies.com.

Please feel free to contact me with any questions.
